In response to lancerfromsydney

lancerfromsydney,

Thanks for trying those steps out. Another step you can try would be to manually subscribe to Apple's Australian holiday calendar. Here is the URL to subscribe to: [Australian Holiday Calendar](#)

Selecting the link while on your iPhone should prompt to add it. You may alternatively follow the "Subscribe to a calendar" section of this page to add it: [Set up multiple calendars on iPhone](#)

Have a good one.
