

This section should not be completed until the business plan is written. It will highlight all milestones in the company's development over the next five years. It should sum up the following areas:

- Purpose of the plan
- Product or service and its advantages
- Market opportunity
- Management team
- Track record, if any
- Financial projections
- Funding requirements

Financial projections should be summarised and highlighted. The following format is suggested as a guide:

	Year 1	Year 2	Year 3
Sales			
Exports			
Net Profit before Tax			
Investment			
Employment			

Remember that potential investors often make a provisional judgement based on the executive summary, and that their decision to read the main body of the business plan will depend on the information presented here. The appendices at the back of the plan contain more detailed information to support the main text of the business plan.
