

Dear Smiles Davis,

We're on an important mission at Refind: we're bringing relevance to the web and we need your help. You've probably heard by now that we share our profits with our users.

**Why?** It's our way of growing the network and giving back to the ones who helped us most.

**How?** We're giving away coins for referrals that we'll later buy back with our profits. Simply share your invite link: for everyone who signs up, we'll give both you and your friend 20 coins.

You can always see your coin balance on your wallet page and read all about our mission here. Thanks for helping us grow Refind through word of mouth rather than ads.
