

SPORTY KIDS

Amya, Bea, Carson, and David enjoyed playing sports. Each wore a different color jersey (red, green, blue, and purple) and played a different sport (soccer, baseball, golf, and lacrosse). Can you figure out which child goes with each color and each sport?

1. Carson wore a color that had 5 letters and played the game that used the least balls.
2. Amya didn't play a game using the smallest ball and wore a color with 6 letters in the word with Bea.
3. The color of Bea's jersey had $(24 \div 4)$ letters in it and played a sport that started with the same letter as her first name.
4. The person that wore a blue jersey had a name with $(45 \div 9)$ letters in it.
