

3

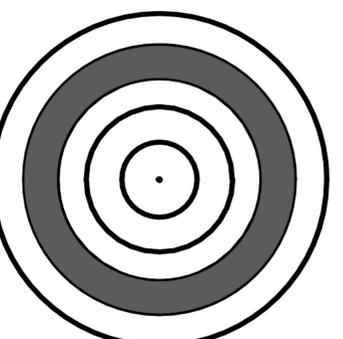

A target diagram consisting of a central dot, two concentric circles, and a shaded ring between the two circles.

4

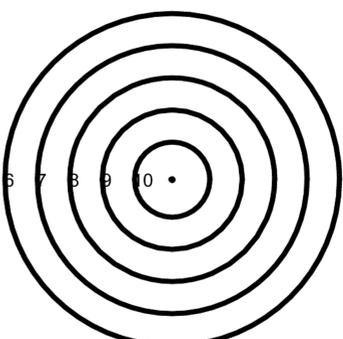

A target diagram consisting of a central dot, two concentric circles, and a shaded ring between the two circles.

5

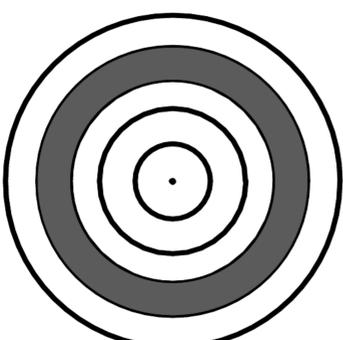

A target diagram consisting of a central dot, two concentric circles, and a shaded ring between the two circles.

Total

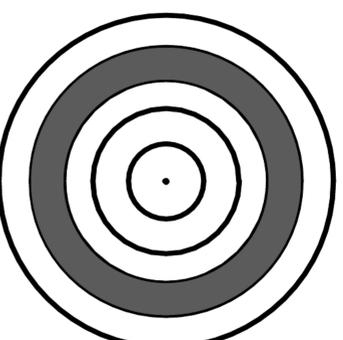

A target diagram with a central dot and four concentric circles. The rings between the circles are numbered 6, 7, 8, and 9 from the center outwards.

8

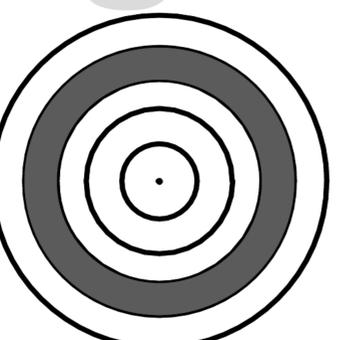

A target diagram consisting of a central dot, two concentric circles, and a shaded ring between the two circles.

9

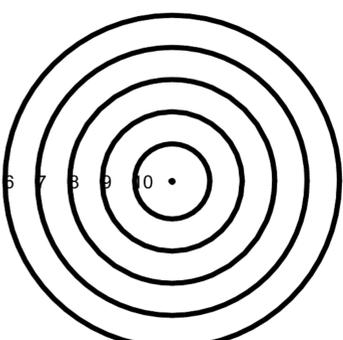

A target diagram consisting of a central dot, two concentric circles, and a shaded ring between the two circles.

10

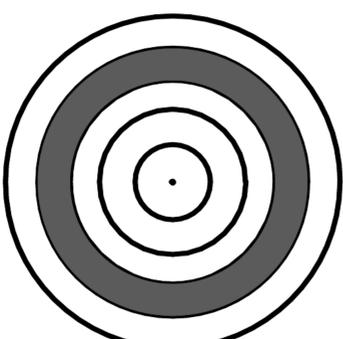

A target diagram consisting of a central dot, two concentric circles, and a shaded ring between the two circles.

Total

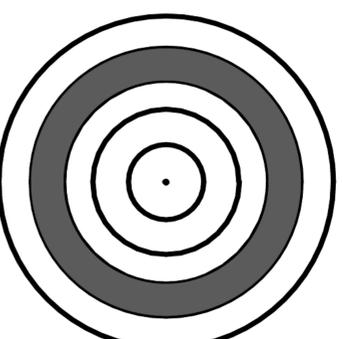

A target diagram with a central dot and four concentric circles. The rings between the circles are numbered 6, 7, 8, and 9 from the center outwards.

13

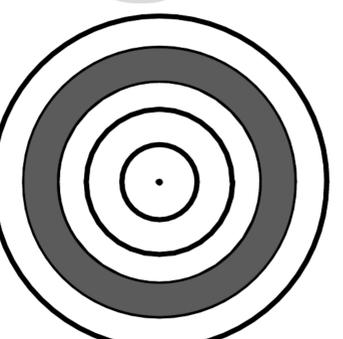

A target diagram consisting of a central dot, two concentric circles, and a shaded ring between the two circles.

14

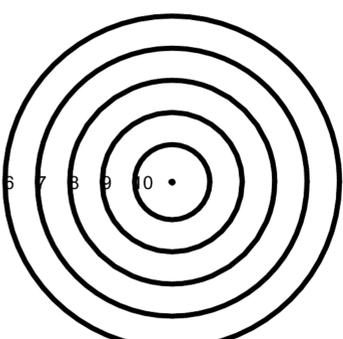

A target diagram consisting of a central dot, two concentric circles, and a shaded ring between the two circles.

15

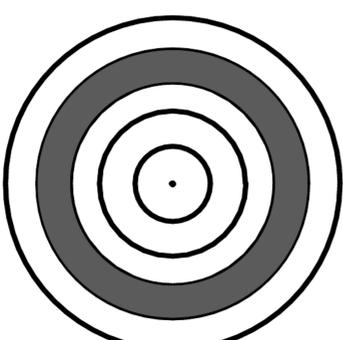

A target diagram consisting of a central dot, two concentric circles, and a shaded ring between the two circles.

Total

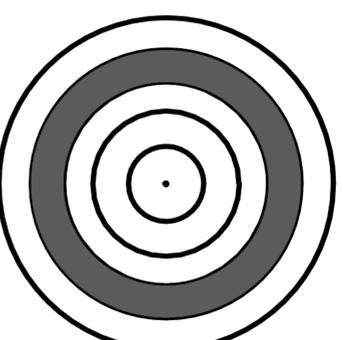

A target diagram with a central dot and four concentric circles. The rings between the circles are numbered 6, 7, 8, and 9 from the center outwards.

18

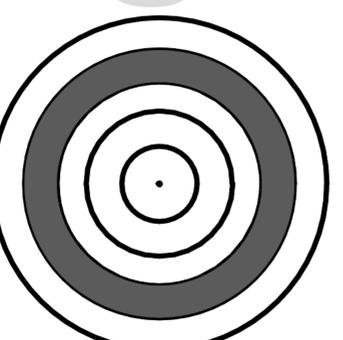

A target diagram consisting of a central dot, two concentric circles, and a shaded ring between the two circles.

19

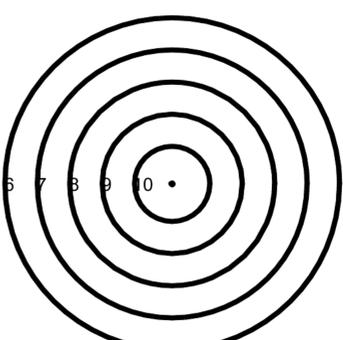

A target diagram consisting of a central dot, two concentric circles, and a shaded ring between the two circles.

20

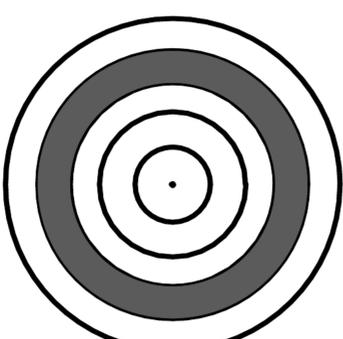

A target diagram consisting of a central dot, two concentric circles, and a shaded ring between the two circles.

Total

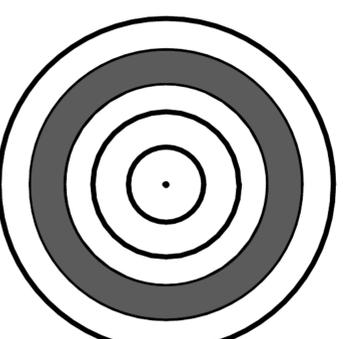

A target diagram with a central dot and four concentric circles. The rings between the circles are numbered 6, 7, 8, and 9 from the center outwards.

23

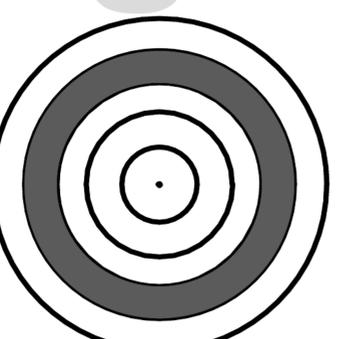

A target diagram consisting of a central dot, two concentric circles, and a shaded ring between the two circles.

24

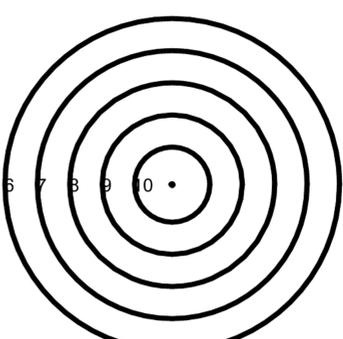

A target diagram consisting of a central dot, two concentric circles, and a shaded ring between the two circles.

25

A target diagram consisting of a central dot, two concentric circles, and a shaded ring between the two circles.

Total

A target diagram with a central dot and four concentric circles. The rings between the circles are numbered 6, 7, 8, and 9 from the center outwards.
