Org Wide Defaults vs. Role Hierarchy vs. Sharing Models

If OWD restrict objects to Private or Read only:

Set Base Level of access:

Open up Access (flexible)

Open up Access (lateral access)

Open up Access (vertical access)

Restrict Access

Public Read/Write
Public Read only
Private

Manual Sharing

Sharing Rules

Role Hierarchy

OWD

Owner, anybody above the owner

Who can set OWD, Role Hierarchy and Sharing?

Administrator
