We sell starter websites: self-contained businesses that are ready to market.

Use our websites to get into the following industries:

Web Hosting/Domains   Logo Design   Marketing Platform

Web Hosting Starter Site

Start your own hosting business today–this website runs on wordpress and WHMCS, software that automates the business workload of your hosting business.

WHMCS automates billing and provisioning and allows you to sell hosting, domains, premium SSL certificates, VPNs and more. Our experts will set up your server and assist you through your humble-beginnings stage.
