

MONTHLY HOME MAINTENANCE CHECKLIST

Hello!

There's a certain pride in home ownership that converts any house into a "home." But we get how challenging it can feel to try and keep up with home maintenance tasks, especially with the busy schedules we lead. Trying to accomplish even the smallest list can sometimes feel . . . overwhelming.

On the following page, we have compiled our month-by-month maintenance tips. By breaking down the list by month, not only does this become a more manageable list, but it allows you to free up more time to do what you should be doing - enjoying your home.

While some of our clients are able to take on all of these tasks, several know when they need help. Our complete [vendor guide](#) will provide you with a list of pre-screened service professionals who can help. From plumbers, to electricians, to yard care service, we have over 100 vendors to assist you with your task list, no matter how small or large.

If there is a specific vendor you are seeking that isn't on our list, please [reach out](#) so we can help find the right professional for you.

Happy Home Ownership!
