May promises to be exciting and busy! Please note there will be a **substitute** for the day of May 10 and afternoon of May 29. We will be receiving butterfly larvae shortly to grow and observe so expect lots of 'bug talk'. Don't forget Mother's Day on Sunday May 12- we will be celebrating Family Day on June 7 instead. You are welcome to join us outside for the Egg Gliders May 16. A four day weekend is always something to look forward to May 17-20. Camping anyone? We have a field trip to Paul Lake May 31 to learn how to fish- please join us! Look for notices or notes in folders and check the class blog weekly at beteamawesome.weebly.com regarding new activities.

Have a wonderful month!

A. Bowden
