

Word Problem: Chef Nina had 84 cups of sugar. She used 24 cups of sugar to make muffins and still had enough to make 6 batches of fudge. How many cups of sugar are needed for each batch?

Thinking
Blocks

Add numbers to your model. Use a ? to show the missing value.

84

24

Check

Feedback

Excellent work! Blocks and labels have been placed correctly. Now you can add numbers to the model.
