

```
-- We have an existing table called dbo.Customer
```

```
SELECT * FROM Test.dbo.Customer;
```

```
-- Let's add a new column but this time with NOT NULL constraint and default value
```

```
ALTER TABLE Test.dbo.Customer ADD customer_address VARCHAR(50) NOT NULL DEFAULT '';
```

```
-- Now, let's see what we have got
```

```
SELECT * FROM Test.dbo.Customer;
```

100 % <
