

The image shows a circular calculator for determining the number of days between two dates. It features an outer ring with months and days, and an inner ring with a day scale. A black arrow points to the 31st of December on the outer ring. The text 'Your Logo Here' is centered in the middle of the circle. Below it is a yellow circle. Further down are instructions on how to use the calculator and a list of leap years.

Your Logo Here

Set arrow on "start" date. Read inner wheel
clockwise the number of days to be calendared.
Outer wheel will show "end" date.
