

FILE 1 : BASE BOX

- To assemble the box you need to cut the base and the 2 lids.

This is the base you just have to cut the black edges of the template, (remember to follow the steps of the guide)

once the base is cut, add glue to the color tabs (●) and that's it, fold and paste (remember to follow the steps of the guide)

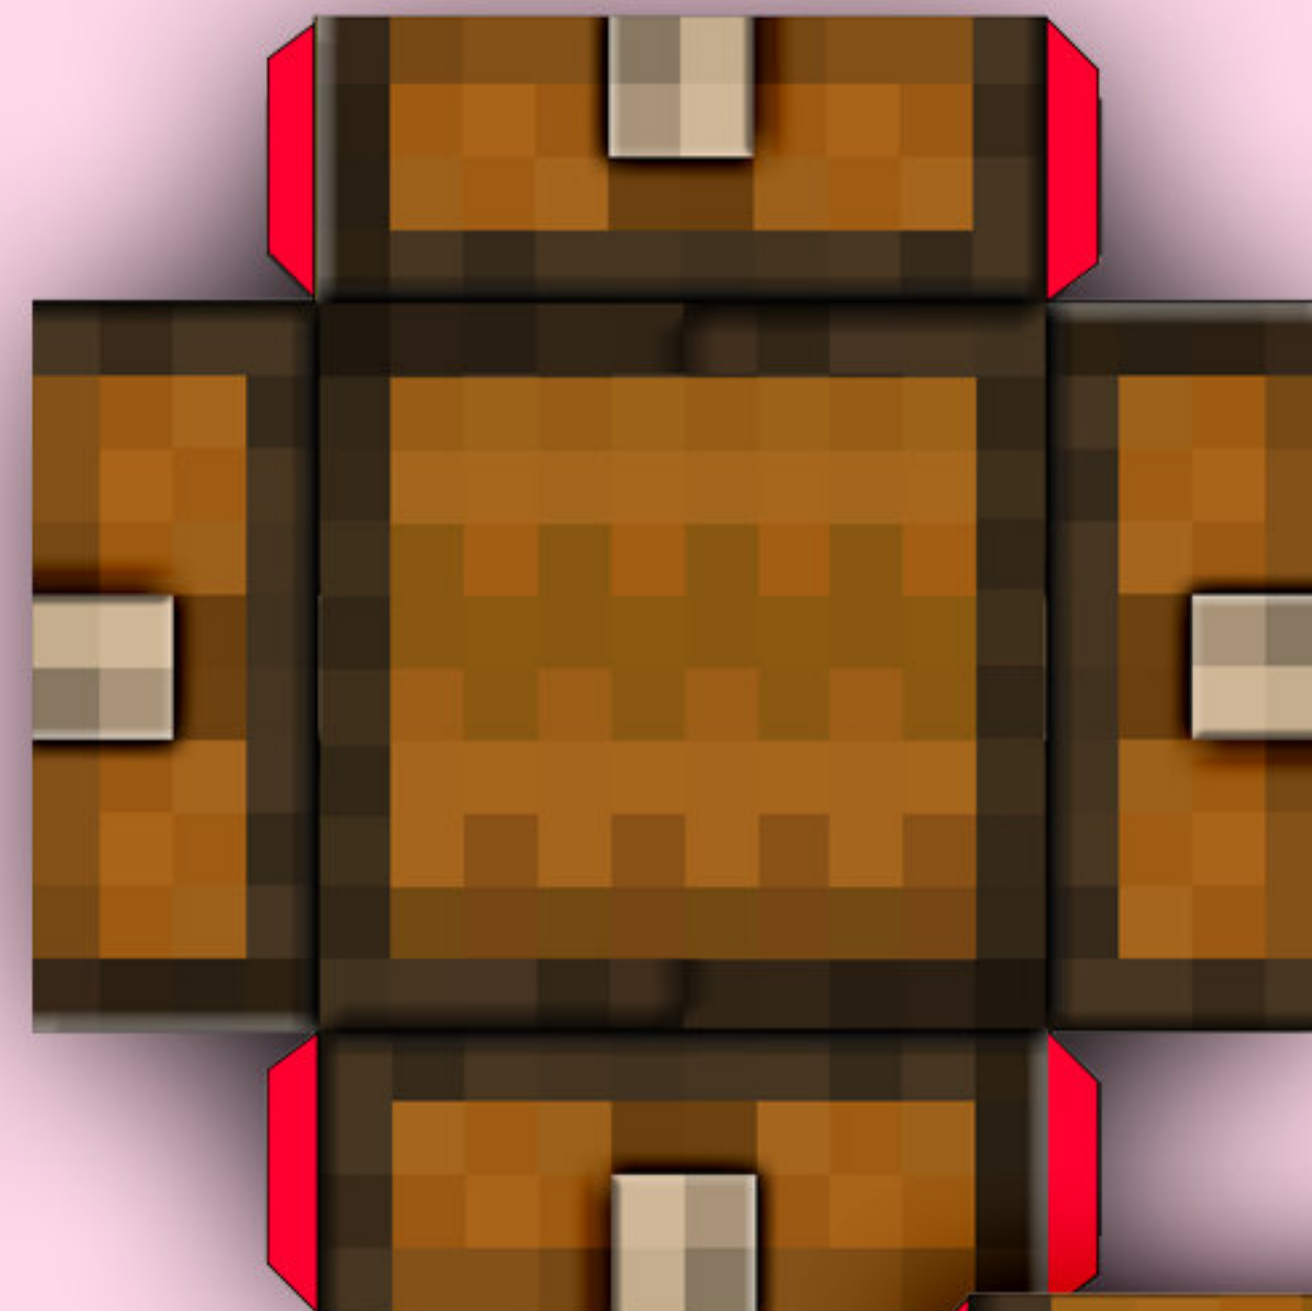

FILE 2 : BOX LIDS

- To assemble the box you need to cut the base and the 2 lids.

these are the lids of the box, they are designed to open the box like a chest (remember to follow the steps of the guide)

once the base is cut, add glue to the color tabs (●) and that's it, fold and paste (remember to follow the steps of the guide)
