**February 2011**

*Note:*

*Part A of this EMP gives general requirements to be met in the planning and detailed design phase of the project (Page 6).*

*Part B of the Standard Specification has been adapted for use for construction works on any of the 3 sites that may be used for resettlement of the Visserhok residents (Page 7 – 27)*

*Part C gives a table of ongoing environmental management and monitoring actions to be undertaken during the Operational Phase on any of the 3 sites that may be used for resettlement of the Vissershok residents (Page 28 – 31).*

*Part D indicates possible decommissioning actions associated with the Van Schoorsdrift Site (Page 32).*
