

CONTINUOUS DATA

data whose units are meaningful at an infinite number of points within a range

continuous data flows like a river

EXAMPLES

Your height (are you 5 feet tall, or 5.01 feet tall, or 5.012367 feet tall?)

How far you ran (was it 2 miles or 2.23 miles or 2.23089 miles?)

Non-Examples

How many people love dinosaurs.

The size of your shoe.

How far away are you, moon?
