Nikola Tesla was born on July 10, 1856 in Smiljan, Lika, which was then part of the Austro-Hungarian Empire. He was a Serbian Orthodox Priest and his mother Djuka Mandić. Tesla was a brilliant inventor and engineer who made significant contributions to the field of scientific development. New York State and many other states have declared Nikola Tesla Day.

On July 10, 1990, the House of Representatives on July 10, 1990 celebrated Nikola Tesla Day. Senator Levine from Michigan spoke in the US Senate on this day.

Tesla's statue was recently placed on the corner of the 40th Street and 6th Avenue in Manhattan. There is a large photo of Tesla in the Statue of Liberty Museum. The Liberty Science Center in New Jersey has a daily science demonstration of the Tesla Coil creating a million volts of electricity before your eyes. Many books were written about Tesla: Prodigal Genius: The Life of Nikola Tesla by John J. O'Neill, Cheney's book Tesla: Man out of Time has contributed significantly to his fame. A documentary film Nikola Tesla: Genius Who Lit the World, produced by the Tesla Memorial Society and the Nikola Tesla Museum in Belgrade, and of Nikola Tesla (Orson Welles), BBC Film Masters of the Ionosphere are other tributes to the great genius.
