

Format a Table Cell

The image shows the 'Table Styles' task pane in Microsoft Excel. It is organized into three main categories: 'Light', 'Medium', and 'Dark'. Each category displays a grid of table style thumbnails. The 'Light' category shows 24 styles, 'Medium' shows 24, and 'Dark' shows 12. These styles vary in color schemes (e.g., white, light blue, light orange, light gray, yellow, blue, green) and patterns (e.g., solid, striped, grid). At the bottom of the pane, there are two buttons: 'New Table Style...' and 'New PivotTable Style...'.
