Protected View

Protected View opens potentially dangerous files, without any security prompts, in a restricted mode to help minimize harm to your computer. By disabling Protected View you could be exposing your computer to possible security threats.

- [x] Enable Protected View for files originating from the Internet
- [x] Enable Protected View for files located in potentially unsafe locations
- [x] Enable Protected View for Outlook attachments

Security settings for opening Text-Based files (.csv, .dif and .sylk) from an untrusted source
