The new Holberry Gardens and Close.

Havelock Square has recently been renamed. Samuel Holberry was a Chartist leader in Sheffield during the 1830s. For his efforts to bring about social and political reform in favour of the working classes, he was imprisoned and died in 1842 as a result of his harsh sentence. Havelock was a leader of the British army in India around the same time. After his death, he became a national hero for his part in putting down mutinees among the Indian people and his own soldiers.
