

The image shows a Python IDE window. The title bar at the top reads "first.py - C:/Users/rahul/OneDrive/Desktop/first.py (3.8.5)". Below the title bar is a menu bar with the following items: File, Edit, Format, Run, Options, Window, and Help. The main area of the window is a code editor containing the following Python code:

```
listOfNames = ["Rahul", "Vikas", "Sam", "Ernesto"]  
  
for name in listOfNames:  
    print(name)
```

The code is color-coded: "listOfNames" is in black, the list elements are in green, and the loop variables and keywords are in orange and purple.
