

The image shows the Microsoft OneNote application interface. The top ribbon is purple and contains tabs for Home, Insert, Draw, View, Help, and Picture. The Home tab is selected, showing various text formatting options like Bold (B), Italic (I), Underline (U), and Font Color (A). The left sidebar shows the 'Mauro's Notebook' structure with 'Quick Notes' and 'Printout' sections. The main content area displays a snippet of a webpage with text about ExpressVPN and a heading 'How to change default search engine on the new'.

A screenshot of a Windows 10 desktop. In the foreground, a print dialog box is open, partially obscuring a Microsoft Edge browser window. The print dialog has a 'Print' header, 'Total: 3 sheets of paper', a printer selection dropdown (HP4C7695), a 'Copies' field set to 1, 'Layout' options (Portrait selected, Landscape unselected), 'Pages' options (All selected, a range field with 'e.g. 1-5, 8, 11-13'), a 'Color' dropdown (Color selected), and a 'Print on both sides' dropdown (No selected). At the bottom of the dialog are 'Print' and 'Cancel' buttons. The background browser window shows the article 'How to change default search engine on the new Microsoft Edge' from Windows Central. The article features a large heading, a sub-image showing the Windows Settings app with the 'Privacy and services' section open, and a paragraph of text. The browser's address bar shows the URL 'read://https\_www.windowscentral.com/?url=https%3A%2F%2Fwww.windowscentral.com%2Fhow-change-default-search-engine-new-micros...'. The Windows taskbar at the bottom shows the Start button and several pinned application icons.
