

Aphasia

My name is Steven Fórcé.

I have Aphasia which is a language and communication disorder that occurred after a stroke/head injury/brain tumour and affects my ability to speak, read and write. My intellect is still intact. I just need more time to process information. **Please give me time to communicate and understand.** Speak clearly and slowly. Use simple sentences.

Ask me yes/no questions. Please do not shout.

Ask me to show you by gesture, pointing, and drawing.
