

# Money Edition

Put your game piece on GO.

Roll the dice. Move that number of spaces.

If you land on a property space, you can BUY the space by paying the amount on the board (give to the "banker").

If you buy the space, put one of your colored houses on the top of the box.

If you land on a property space with someone else's house on it, you must PAY that person the amount on the board.

If you land on a CHANCE space, pick a CHANCE card and answer the question. If you get it right - roll again!

If you land on RAILROAD space, roll again!

If you land on an EVENT space (fireworks, restrooms, or water show), pay the amount on the board (put it in the middle of the board).

If you land on the LOOSE CHANGE space, take all the money in the middle of the board!

Each time you pass GO, take one of each coin from the banker (penny, nickel, dime, quarter).

The player with the most houses on the board wins!
