

OCTOBER

LEAF MUSTARD 'ROUGE METIS'

If you want to make the most delicious sandwich in the world, follow a few basic rules. Put the driest ingredients at the bottom. The more aromatic the cheese is, the higher it should be placed in the layers of the sandwich. And most importantly: Give your sandwich an extra tangy touch with fresh leaf mustard.

If you make sure it gets plenty of sunlight, the mustard leaves will develop a beautiful red colour. This will turn your sandwich into the prettiest snack!
