

Notice – Free COPE accredited CE courses now available:

We now offer free COPE accredited CE courses to all providers. Take a course to get your CE credit today.

MARCH
Vision Care

The lens selection on the March Eyeglasses Order Form has been updated from a free text field to a drop-down menu. Please note, the lens density corresponds to the characteristics of the lens material. For example, polycarbonate lenses can accept a maximum density of 70% whereas plastic lenses can be tinted as high as 95%.
