

Booking Calendar

WP

Easily manage full-day bookings,
time-slot appointments,
events and more...

1st booking plugin for WordPress

We've been helping manage billions of bookings since 2009

The screenshot displays the Booking Calendar WordPress plugin interface. The main area shows a 'Booking Listing' table with columns for date, time, and status. Three bookings are listed:

Date	Time	First Name	Last Name	ID	Room	Status
05.09.2025	5:00 PM - 5:30 PM	John	Smith	181	Standard Room	Approved
05.09.2025	12:30 PM - 1:00 PM	John	Smith	180	Standard Room	Pending
21.10.2025 - 25.10.2025		John	Smith	179	Standard Room	In Trash / Approved

Two calendar pop-ups are shown: one for July 2025 and another for November 2025. The November 2025 calendar has the 12th selected. A booking details modal is open, showing a form for 'First Name*' (John) and 'Last Name*'. To the right of the modal is a time slot selection menu with options from 9:00 AM to 4:00 PM, where 1:00 PM is selected. Below the time slots is a menu with options: 'Edit booking', 'Edit note', 'Print', 'Collect Payment', and 'Charge with pay link'.
