CONSULTING AND TRAINING

## Executive Summary

### Objectives

Establish aggressive technology implementations for Lamar School, including the campus-wide use of wireless connected internet devices and Google Apps for Education for faculty and students.

### Goals

- Use Google Apps Education Edition for communication and collaboration between students and faculty
- Deploy MacBooks to seniors in pilot program
- Deploy iPads for use in elementary classrooms
- Establish campus-wide wifi access
- Train faculty and students in the appropriate use of MacBooks and iPads in a 1:1 learning environment
- Periodic maintenance of equipment and services
- Ongoing support and training for faculty

### Solution

125% 1,532 Words Pages 1-2 of 9
