ligature

The image displays the phrase "happy Birthday" in a highly decorative, black calligraphic script. The word "happy" is in a smaller, more compact script, while "Birthday" is significantly larger and more elaborate, featuring long, sweeping flourishes. Several red dashed circles are drawn around specific parts of the text to highlight OpenType features. Red arrows point from text labels to these circles: "SS01" points to the 'h' in "happy"; "SS02" points to the 'p' in "happy"; "SS04" points to the 'B' in "Birthday"; "SS06" points to the 'y' in "Birthday"; "Swash" points to the initial flourish of the 'B'; and "ligature" points to the 'ir' in "Birthday". The background is white, with clusters of pink and white roses in the corners.
