Want to do more with PDFescape? **Install the Firefox Extension**

Open a File From Your Computer

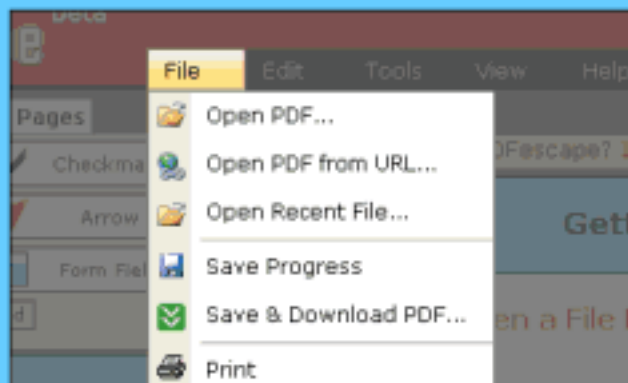

Open a File From The Internet

Open a Recent File

To get started, click one of the options above or click FILE to bring down the file menu.

The screenshot shows the 'File' menu open in the PDFescape application. The menu options are:

- Open PDF...
- Open PDF from URL...
- Open Recent File...
- Save Progress
- Save & Download PDF...
- Print
