Life is a journey of calculation. Some count their days by subtraction as we only live once. Yet, by accumulating love from friends and family, some see life as a sum of goodness.

Ms. Yeung Siu Fong, speaker of this seminar, unfortunately lost both arms in an accident when she was a child. Even though her life is full of thorns, she "walked out" an extraordinary life with her feet. In this seminar, this life fighter will share her own experience with us in the hope of exploring all the possibilities in our life.
