

JavaScript every() method

Daily Tip
25-11-2020

```
const users = [  
  { name: 'Bob', temperature: 36.3 },  
  { name: 'Sarah', temperature: 37.9 },  
  { name: 'Billy', temperature: 36.9 },  
];  
  
const temperature = users.every(user => {  
  return user.temperature < 37.8;  
});  
  
// Returns false
```
