PERSONAL STATEMENT

I'm an Economics, Statistics, & Mathematics undergraduate at Queen Mary University London with a strong foundation in statistical modelling and international finance strategy. With strong language skills in Italian and Arabic, leadership skills, and proven success in the Global Impact Student Challenge, I believe myself to be an excellent candidate for the position of Barclays UK Advanced Analytics Summer Analyst.

KEY SKILLS

- **Statistical Modelling** – Experience using in R and Python for regression analysis, forecasting, and predictive modelling
- **International Finance** – Knowledge of macroeconomic trends, cross-border market dynamics, and managerial decision-making strategies
- **Languages** – Italian (C2), Arabic (B1)

EDUCATION

Sep 20XX–Present	**Queen Mary University of London** **BSc (Hons) Economics, Statistics and Mathematics** **Relevant modules:** Macroeconomics, Statistical Modelling, International Trade, Financial Mathematics, Labour Economics
Sep 20XX–Sep 20XX	**Cedar Mount Academy, Manchester** **A-Levels:** Statistics (A), Psychology (B), Maths (B)

RELEVANT EXPERIENCE

Sep 20XX–Dec 20XX   **Data Analytics Lead**
GLOBAL IMPACT STUDENT CHALLENGE, London

- Led a multidisciplinary team to develop a fintech-based solution to improve financial literacy in emerging economies
- Applied statistical modelling to analyse demographic and market data, identifying high-impact intervention zones and optimal rollout strategies
- Presented findings to an international judging panel, securing a place among the top 10% of entries for innovation and feasibility

HOBBIES & INTERESTS

Player on university football team • Chair of QMUL Cultural Exchange Society • Self-taught guitarist
