

This chart provides a seasonal guide for planting 15 different vegetables. The columns represent the months from January to December. The rows represent the vegetable types. The color gradient in each row indicates the progression of the growing cycle, from starting seeds indoors (green) to planting/transplanting (yellow/orange) to harvesting (red).

	Start Seeds Indoors	Plant Seed/Transplant	Harvest									
Month	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
Beans			Start							Harvest		
Beets	Start				Start			Start		Harvest
