

JavaScript filter() method

Daily Tip
20-11-2020

```
const items = [
  { name: 'T-shirt plain', price: 9 },
  { name: 'T-shirt print', price: 20 },
  { name: 'Jeans', price: 30 },
  { name: 'Cap', price: 5 }
];

const filter = items.filter(item => item.price > 10);

//[
//  { name: 'T-shirt print', price: 20 },
//  { name: 'Jeans', price: 30 }
//]
```
