

Program manager vs project manager

	Program manager	Project manager
Description	Supervises long-term strategies that consist of multiple smaller projects.	Supervises individual projects that meet program objectives.
Focus	Program strategy	Work coordination
Duration	Long-term	Short-term
Tasks	Implement strategies, oversee collaboration, and define success metrics.	Coordinate work, organize projects, and track progress.
Success	Measured by the success of program strategies, ROI, and company-wide objectives.	Measured by the success of individual projects, timelines, and budget compliance.
