Program

VS

Project

A program is a long-term undertaking for strategic benefits.

Projects are time-bound one-off undertakings to achieve tangible outcomes.

Programs consist of several inter-connected projects

Several projects come together to fulfill one long-term objective for a program.

A program's success is measured in terms of the needs and benefits that the program was conducted.

A project's success is measured in cost-effectiveness, quality parameters, deadlines, and customer satisfaction.

Program management is focused on context.

Project management is focused on content.
