

Table of Contents

- 1 Panasonic error code h11 (Outdoor/indoor abnormal communication)
- 2 Panasonic error code h14 (faulty inside air sensor)
- 3 Panasonic error code h15 (faulty compressor sensor)
- 4 Panasonic error code h16 (transformer faults)
- 5 Panasonic error code h19 (locked fan motor)
- 6 Panasonic error code h23 (out of order inside pipe sensor)
- 7 Panasonic error code h24 (inside pipe temperature sensor two issue)
- 8 Panasonic error code h25 (e-ion Air purifying issue)
- 9 Panasonic error code h27 (faulty outdoor air sensor)
- 10 Panasonic error code h28 (out of order open-air pipe sensor)
- 11 Panasonic error code h30 (discharge temperature compressor sensor issue)
- 12 Panasonic error code h33 (incorrect linking voltage)
- 13 Panasonic error code h97 (DC motor mechanism locked)
- 14 Panasonic error code h99 (faulty chill mode)
- 15 Panasonic error code f11 (four-way valve abnormality)
- 16 Panasonic error code f90 (PPC failure)
- 17 Panasonic error code f91 (refrigerator cycling problems)
- 18 Panasonic error code f95 (overheating open-air coil)
- 19 Panasonic error code f96 (overheating compressor or IPM)
- 20 Panasonic error code f98 (over current protection)
- 21 Panasonic error code f99 (DC over current protection)
