

2023 Calendar Planner Spreadsheet

The screenshot displays a 2023 Calendar Planner Spreadsheet in Microsoft Excel. The spreadsheet is organized into three overlapping calendar views for the months of January, February, and March 2023. The January 2023 calendar is the most prominent, showing a grid with days of the week (Sunday through Saturday) and dates (1 through 31). The February 2023 calendar is partially visible behind the January calendar, and the March 2023 calendar is partially visible behind the February calendar. The Excel interface includes the ribbon with tabs like File, Home, Insert, Draw, Page Layout, Formulas, Data, Review, View, Developer, and Help. The status bar at the bottom shows 'Ready' and '85%' zoom. A large purple arrow points from the top right towards the calendar views.

January 2023						
Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
	1	2	3	4	5	6
	8	9	10	11	12	13
	15	16	17	18	19	20
	22	23	24	25	26	27
	29	30	31
