

Find the perfect size for your kid

HOW TO PRINT

- 1 Ensure you print at 100% scale.
- 2 Uncheck 'fit to page' or 'page scaling'.
- 3 After printing place a credit card against the outline to confirm scaling is correct.

HOW TO MEASURE

- 1 Your child should be measured barefoot.
- 2 Place the heel on the curved line below the cat.
- 3 Find your child's size by identifying the first line past the longest toe and make a mark there.
- 4 Measure both feet as your child's left and right foot sizes may vary. Use the larger foot as the shoe size.

Note: Children's shoe sizes are hard to figure out, and vary across different brands. While buying new brands always check their specific size chart with your child's most recent measurements for accurate sizing.
