Jacob Kielmeyer: Attempt 1

Exactly eight builders - Bright, Condor, Deft, Echo, Frill, Gale, Hester, and Jolson - will purchase lots sold by the Urban Redevelopment Authority. The lots are in a straight line and are numbered 101 through 108, from north to south. Each builder will purchase exactly one lot in accordance with the following conditions:

Deft will purchase lot 104.

Frill will purchase lot 106.

Jolson will purchase a lot north of lot 104.

**Question 1** (1 point)

Which one of the following CANNOT be true if Bright and Jolson purchase even-numbered lots?

a) Condor purchases lot 105.

b) Condor purchases lot 107.
