

CHORES

S M T W T F S

This image is a worksheet for practicing the number 7. It consists of seven horizontal rows. Each row begins on the left with a gray banner that has a pointed right edge. To the right of each banner is a row of seven empty circles. The circles are colored in a specific sequence from left to right: purple, red, orange, yellow, green, cyan, and blue. This layout is designed for children to write the number 7 in each banner and to color or identify the corresponding colored circles.
