What's the message?

What points do you think the cartoon is making about India?

How do the Indians and Punjabis in the cartoon help the audience make their point?

Choose from your own knowledge, suggest the role of the cinema hall?

What should the audience of the cartoon be at all?

What's the message?

What gods is it worth devoting money about the treatment of the Plains Indians after 1850?

How do the images and stories in the cartoon help explain the policy?

What can you think that the cartoon about the American gods is saying the Plains Indians at this time?

Create Your Own Carbon

Use the opportunity to create your own carbon footprint and see what you can do to reduce it. This is a fun and interactive activity that can be done in class or at home.

Carbon Footprint is the amount of greenhouse gases (mainly carbon dioxide) that are produced by an individual, organization, or activity. It is a measure of the impact that we have on the environment.

Carbon Footprint Calculator is a tool that helps you calculate your carbon footprint. It asks you a series of questions about your lifestyle, such as how much you drive, how much you fly, and how much you consume. The calculator then gives you a score and some tips on how to reduce your carbon footprint.

Carbon Footprint Reduction is the process of reducing the amount of greenhouse gases that you produce. There are many ways to do this, such as driving less, flying less, and consuming less. You can also use the calculator to see what changes you can make to reduce your carbon footprint.

Carbon Footprint Challenge is a game that helps you reduce your carbon footprint. It gives you a series of challenges to complete, such as driving less, flying less, and consuming less. You earn points for completing each challenge, and the more points you earn, the more you can reduce your carbon footprint.

Carbon Footprint Tracker is a tool that helps you track your carbon footprint over time. It allows you to enter your carbon footprint data, and it will then show you how your carbon footprint has changed over time. This can help you see the impact of the changes you are making to reduce your carbon footprint.

Carbon Footprint Report is a document that shows your carbon footprint and the steps you can take to reduce it. It is a useful tool for individuals, organizations, and communities. It can help you see the impact of your carbon footprint and the steps you can take to reduce it. It can also help you see the impact of the carbon footprint of others and the steps they can take to reduce it.
