

OFFSET Function in Excel

The screenshot shows the Microsoft Excel ribbon with the **Formulas** tab selected. The **Lookup & Reference** group is expanded, and the **OFFSET** function is highlighted. A red arrow points to the **OFFSET** function in the dropdown menu.

The formula bar shows the text **=OFFSET(**.

The syntax for the **OFFSET** function is shown in a yellow box:

OFFSET(reference, rows, cols, [height], [width])

The full syntax and description of the **OFFSET** function are shown in a red box:

OFFSET(reference, rows, cols, height, width)
Returns a reference to a range that is a given number of rows and columns from a given reference.
